

Marblehead's Building Oversight Committee:

The first BOC was formed by the Marblehead School Committee in June of 1999 to oversee the design and construction of the new Marblehead High School on the Sevinor site (MHS opened September, 2002). The second BOC was convened by the Marblehead School Committee in January, 2002, to oversee the design, renovation, and construction of the Marblehead Veterans Middle School (MVMS opened September, 2004). Both these committees delivered completed school projects on-time and on-budget by working closely with the project architect, project manager, and construction manager. The Village BOC will work in a similar manner.
